Background

Brogdale Farm, in Faversham Kent, is home to the National Fruit Collection, which comprises over 4000 different varieties of Apples, Pears, Cherries, Quinces, Plums, Hazelnuts and Cobnuts, and a variety of soft fruits.

We work with schools and education institutions, offering modular days designed to give pupils practical, theoretical and interactive learning related to the Key Stage 1 & 2 curriculum.

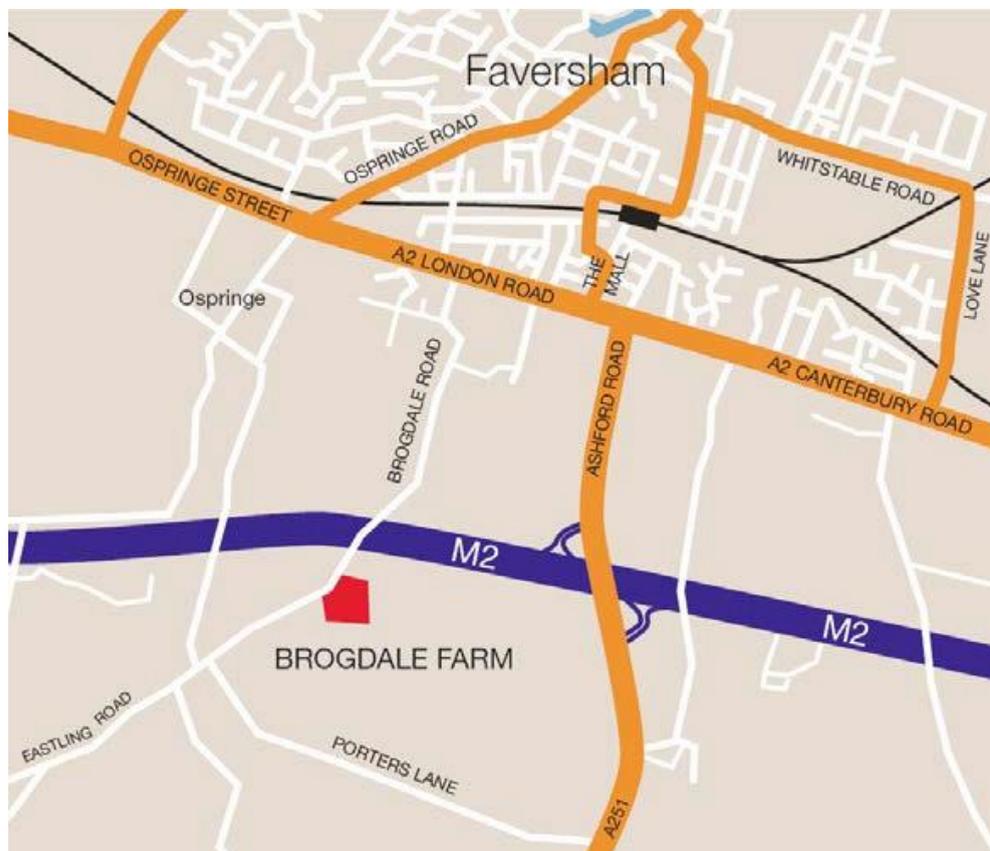

The fruit farm, weather station and nature area offer an environment to encourage a greater understanding of how fruit is grown and how both climate and insects play their part in making this happen.

Children can explore these areas as part of our modular days and enjoy hands on learning that is valuable to their curriculum goals.

Modules

We offer six modules tailored to the National Curriculum and designed to give children a fun and interactive day with practical demonstrations and positive learning experiences.

We provide all necessary equipment and materials and whenever possible (depending on the time of year) we offer inclusive seasonal fruit tasting as part of the day.

Days typically run from 10:00 to 14:00 with lunch, play and comfort breaks.

The modules model our BROGDALE education values of:

- B** 'Bee' nice to Bees, Bugs and Beasties
- R** Recycling and Resources – to support plant and animal life
- O** Orchards – importance of the Heritage Collection
- G** Grow and Gather – in the home and school environment
- D** Diet and Healthy Living – importance of eating and living well
- A** Arts & Crafts – taking inspiration from nature
- L** Lifecycle of plants and animals
- E** Environment and climate – how it affects what we grow

Module Agenda

Typical timings dependent on module chosen

Time	Activity
10:00	Arrive, go to classroom. Leave bags and lunches. Introduction to the day. Toilet break.
10:30	Walk to orchard for module activities.
11:45	Return to base. Toilet break and hand wash.
12.00	Lunch (picnic area or indoors) with time in the play area.
13:00	Afternoon activities depending on module chosen and required departure time.
14:00	Fruit tasting, toilet and gift shop (if required) and depart.

Arrival

Upon your arrival at Brogdale Farm please ask your coach driver to proceed to the far right of the car park away from other cars so that you can unload and assemble the children safely. Please then take the children to the school rooms where they will be able to leave their belongings, use the toilet etc, before you start your activities. The entrance to Brogdale Collections and the school rooms is on the right just past the Courtyard Restaurant.

Site Facilities

We are well equipped to host school visits at Brogdale Farm. We have adequate coach parking, two classrooms, toilets and hand washing facilities. Adjacent to the classrooms we have a shop and small kitchen.

There are also additional retail outlets that you may wish to visit in the market place in addition to our own craft and gift shop.

Children may choose to bring money with them to use in the gift shop.

Equipment and Materials

We will supply all scientific equipment (nets, bug catchers, magnifying glasses, compasses, maps etc. depending on module) and any clipboards, worksheets, craft materials and stationery needed. All you need to bring along are yourselves and your packed lunches.

Tailored Visits

Schools are welcome to visit Brogdale Collections throughout the year.

As well as the Brogdale modules for KS1&2 pupils, we welcome the opportunity to discuss your individual teaching requirements and will endeavour to accommodate your needs by tailoring a specific agenda.

Cancellation Policy

If you need to cancel your visit please let us know as soon as possible, preferably via phone. Deposits are non-refundable.

Pre Visit Meeting

To ensure that your classes have a perfect visit we suggest that you book a pre-visit meeting. The purpose is to discuss your teaching requirements, familiarise yourself with the site and look at the areas that the children will be visiting, so that you can complete your Risk Assessment. Pre-visits can be booked any time during weekdays, including school holidays.

Risk Assessment Procedure

Our risk advice is regularly updated to reflect the layout and activities of the farm, orchards and classrooms. Visitors should arrange to undertake their own risk assessment, the Brogdale one is for advice only.

Covid -19

We have implemented controls for Covid-19 on site. Hand washing and sanitisation stations are in place on site. Visitors are reminded to wash their hands for 20 seconds on a regular basis (including hand washing on arrival) and the importance of proper drying with disposable towels. Reminders to catch coughs and sneezes in tissues – Follow Catch it, Bin it, Kill it and to avoid touching face, eyes, nose or mouth with unclean hands are also in place. Tissues will be made available. It is the responsibility of teachers and supervisors to ensure this happens. A separate Covid -19 Risk assessment is available.

Preparing your class for a visit to Brogdale Collections

Brogdale is a working farm, as well as accommodating a number of businesses, retail outlets and the

visiting public. Help to keep your group safe by talking to them about a few simple rules before your visit. The following safety tips may be of use.

- Stay together with your group and close to your adult leader. Do not run ahead.
- Look and listen for vehicles and farm machinery. Listen carefully to your group leader.
- Do not climb on gates, walls, fences or machinery.
- Do not pick or eat any fruit.
- Do not put your hands in your mouth whilst you are on the farm.
- Make sure you wash your hands before you eat your lunch and leave the farm.
- Do not touch any horticultural equipment unless instructed to do so.

Pupil Supervision

Teachers are responsible for the supervision, discipline and management of their groups whilst they are visiting the site. Schools must supply adequate adult supervision in accordance with county council guidance. Brogdale Collections are happy to accommodate any supervisors that schools bring along.

Lost Children

Any children found unaccompanied will be escorted to the classroom and cared for by Brogdale Collections staff if no teachers or supervisors are present. Brogdale tutors carry mobile phones and we are never more than five minutes brisk walk from the classroom.

Hygiene

To reduce the risk of infection, all cuts and grazes should be covered by waterproof dressings before coming to Brogdale Farm. Pupils should not take any food out into the orchards. Teachers are advised to carry anti-bacterial gel and tissues whilst on the farm as well as a first aid kit.

Before leaving the farm all visitors should thoroughly wash their hands using soap and warm water. It is the responsibility of teachers and supervisors to ensure this happens.

First Aid and Allergies

Teachers are responsible for providing and administering their own first aid. Please ensure that children bring any medication with them that they require.

Allergies – Please be aware of any allergies, particularly with regard to Bee and Wasp stings and ensure children have their medication with them. We may also visit cobnut and hazelnut trees.

Footwear and Clothing

Visitors should be conscious of weather conditions and the fact that we will be outdoors and dress appropriately. Sturdy footwear should be worn at all times of year and ideally long trousers. Hats should be worn on sunny days and sunscreen applied. If it is very hot we will work in the shade where possible.

Lunch and Refreshments

A packed lunch is required which can be left in the school rooms. Please ensure that you bring sufficient drinks for the children whilst out on the farm, particularly on hot days.

If the weather allows we have an outdoor picnic and play area available. Children are not allowed to eat in the orchards.

Disabled or Limited Mobility

The Farm can accommodate disabled children or those with limited mobility. Please discuss the options available with the Education Officer.

Brogdale Collections Staff

All Brogdale staff involved in school visits have an Enhanced DBS check undertaken by Brogdale Collections. The primary care of children sits with teachers and supervisors.

RISK ADVICE

BROGDALE EDUCATION RISK ADVICE

This document is for advice only and visitors should arrange their own risk assessment prior to any visit.

Hazard	Risk associated with the hazard	Controls in place	Personal protective equipment Required	Severity of Risk	Likelihood of Risk
